

# **CS1TQ2 - Commercial Off The Shelf Software**

## **Practical 3 - Internet Explorer**

For today's practical please make sure that you can carry out the following tasks related to the use of the internet and internet explorer. Items up to the horizontal line are those normally expected of someone achieving ECDL3 standard and should be regarded as a minimum. (Some items may not be possible on the laboratory PCs) Further items are optional, but you will find them useful. A quiz is also included, (for which there is no prize!) but it is intended to test your abilities to search the internet and construct appropriate search criteria.

- Starting and quitting Internet Explorer.....**□
  - Setting the home page .....**□
  - Printing a web page / controlling page setup .....**□

- 

### **Managing cookies**

Do you know how to set Internet Explorer up to ask you before accepting and modifying cookies?

### **Karl's Internet Quiz**

Use Internet Search Engines to find web pages which can provide answers to the following questions. You may need to construct search queries using more than a simple list of keywords.

- 1)What is the real name of the singer Fish?
- 2)Who is a Roman honouring by carving I O M?
- 3)What is the volume of Io?
- 4)A Pacific has 12, including 6 driving ones. How many does an Atlantic have?
- 5)In her world, what colour is Christina's house?
